

Declaration of SVHC / REACH Conformity

All the materials processed by Non Standard Socket Screw Ltd (NSSS) are considered “Articles) under the REACH regulations. Articles are exempt from REACH unless a substance exceeding 1 Tonne is released into the environment during normal conditions of use.

We do not import chemicals from outside the European Union. The materials we process do not release or expel chemicals.

For this reason, we classify our business according to the REACH regulations as a “Downstream User”.

We do not anticipate any of our articles to contain substances that are included in the candidate list. (EU REACH Article 174).

Our exempt status is based on our understanding of REACH as given in guidance document,

file:///Z:/Quality/REACH%20RoHS%20SVHS%20WEEE%20IMDS%20ELV%20COSHH/REACH/Guidance%20docuemnt%20articles_en.pdf

(dated May 2008), all SVHC lists published prior to 14th June 2023 (currently 235 items), and our knowledge of materials used to manufacture our products.

NSSS Policy

NSSS will continuously review the SVHC “Candidate List” for additions and updates and act accordingly in compliance with REACH regulations. In the extremely unlikely situation that a NSSS product is found to contain SVHCs more than 1000ppm by weight, NSSS will comply with the notification procedures to the authorities and recipients required under REACH legislation.

For and on behalf of Non Standard Socket Screw Limited.

Maria Gregory
Quality Manager
